**Summary** — Flutter developer creating cross-platform applications with clean architecture; IT student passionate about building intuitive mobile solutions.

## Education

**Dr. B R Ambedkar National Institute of Technology Jalandhar**

B.Tech in Information Technology

Aug 2024 – Present

## Experience

**Level SuperMind**

Intern - Frontend Developer

Jan 2025 – Present

- Developed responsive frontend using Next.js and implemented RESTful API integration
- Collaborated with a team of 4 developers using agile methodology to deliver a complete online religious services platform

## Freelancing Projects

**SahlPlus**

- Led end-to-end development of an IoT-integrated e-scooter sharing platform using Flutter with clean architecture and Riverpod state management.
- Implemented real-time location tracking, payment gateway integration, and optimized performance through strategic lazy loading.
- Collaborated with backend engineers on RESTful APIs design and implementation for a seamless cross-platform experience.

## Projects

**CropConnect**

Flutter, Firebase, AI/ML

- AI-powered agricultural platform facilitating farmer cooperatives with smart contracts and offline-first architecture for rural users.

**Blood 4 Life**

Flutter, Firebase, Dart

- Three-way infrastructure connecting blood donors with NGOs through automated matching and geographical zone management.

**IPQS - Intelligent PDF Querying System**

Flutter, Firebase, Gemini AI

- AI-powered document analysis application that won 2nd place at IEEE PEC Hackathon, built in under 18 hours.

**SoulBuddy.ai**

Flutter, AWS, Langflow

- Conversational spiritual platform with birth chart analysis that won 1st runner-up at Level SuperMind Hack.

## Achievements and Extracurricular

- 1st Runner-Up at Level Supermind Hackathon (2025) - Created SoulBuddy.ai, an AI-powered astrological guidance platform, competing against 23000+ participants nationwide.
- 2nd Runner-Up at IEEE PEC × Prajna AI Hackathon (2024) - Developed IPQS, an intelligent document analysis system, recognized for innovative AI implementation among 60+ teams.
- Conducted technical workshops on Flutter development for undergraduate freshers as part of GDSC NITJ Core member.
- Active Flutter and Linux blog writer with a blog featured on Hashnode.

## Skills

**Mobile** Flutter, Dart, Riverpod,GetX, BLoC, Android Studio

**Backend** Firebase, Appwrite, Node.js, Express.js

**Languages** C, C++, Zig, Python, JavaScript, HTML/CSS

**Tools** Git, GitHub, Bash, Linux, Arch Linux

**Productivity** Notion, Obsidian, Markdown

**Game Dev** Unity, C#
